- **Related Coursework:** Algorithm and Programming, Human and Computer Interaction, Database Technology, Software Engineering, Object Oriented Programming, Web Programming
- **Specialization:** Web Development

PROJECTS

Glow.i Website   *Oct 2024*
INVOFEST Competition
- Glow.i is a web-based platform designed to help individuals improve their skin health by offering AI-based skin problem identification, community discussions, and a dedicated e-commerce section for skincare products. It offers personalized recommendations based on scan results, a forum for users to exchange advice and experiences, and a curated marketplace to find products tailored to various skin needs.

Personal Website   *Sept 2024*
Side Project
- My portfolio website showcases a collection of my work, skills, and achievements across various projects. It reflects my passion for creativity and problem-solving, with sections dedicated to software development, data processing, and research experiences. Designed to provide an engaging and seamless browsing experience, the site highlights my journey, accomplishments, and commitment to continuous growth.

PuPiGo Website   *May 2024*
Software Engineering
- A transportation service website designed to streamline the process of scheduling pick-ups and drop-offs. It provides users with a simple, user-friendly platform to book, track, and manage rides efficiently, ensuring a smooth and hassle-free experience.

Guidance School Website   *June 2022*
Guidance School – Creative Staff
- A user-friendly website designed for Guidance School, providing comprehensive information about programs, admissions, and enrollment procedures. It features an engaging interface that highlights the school's activities, achievements, and events, ensuring visitors stay informed and connected with the latest updates.

WORK EXPERIENCE

Guidance School   Indonesia
Creative Staff - Internship   *Apr 2022 – Sep 2022*
Project: School Website
- Designed the school's website, ensuring easy navigation and alignment with the school's goals.
- Created posters, banners, and flyers for events using design tools to maintain brand consistency across print and digital platforms.
- Curated engaging content for the school's Instagram, fostering community engagement and highlighting student achievements.

ORGANIZATION EXPERIENCE
_____

Data Science Club
DSCO Secretary

Feb 2022 – Jan 2023
- Managed files, documentation, and records essential for event planning and execution.
- Led and coordinated committees from multiple divisions, ensuring tasks aligned with event goals.
- Oversaw communication, problem-solving, and decision-making to ensure smooth and successful events.

Data Science Club
EO Team Leader   *Nov 2022 – Dec 2023*
- Led a team of event organizers, overseeing the planning, coordination, and execution of events.
- Delegated tasks, provided guidance, and ensured deadlines were met while maintaining quality.
- Managed logistics, adapted to changing situations, and kept event goals in focus.

BNCC
Activist   *Feb 2021-Jan 2022*
- As an Activist in BNCC, I learned how to collaborate effectively within a team, ensuring that tasks were completed on time and that everyone's input was valued. Time management was crucial as I balanced multiple responsibilities and deadlines, allowing me to develop strong organizational skills.
- Additionally, I had the opportunity to enhance my public speaking skills by presenting ideas, leading discussions, and communicating with a variety of audiences.

VOLUNTEERING
_____

Teach For Indonesia   Indonesia
Early Childhood Education - Volunteer Teacher   *Apr 2022 – Sep 2022*
- I volunteered to teach young children in PAUD Baiuturrohmah.

Asian Babtist Woman's Union   Indonesia
Volunteer - Crew   *Apr 2022 – Sep 2022*
- I volunteered in an organization called ABWU, where I assisted participants from diverse countries, including India, the Philippines, Thailand, and America. My role involved helping them navigate their participation and ensuring smooth coordination across different cultures.
